

Certification of tested MSI – BEDA Biodegradable Additive

This is to certify, testing of different resins, with the testing occurring according to the amended test method, ASTM D 5511, showing Biodegradation of Plastic Products, compared to the negative control showing 0% biodegradation after the same amount of days, as per D5511 test protocol. In addition, the compost used for the product degradation in ASTM D5511 showed no general toxicity to plants or animals in accordance with OECD 207 and OECD 208.

Date:	Certified by: 
03/15/2024	Alan Johnson

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025. This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory quality management system (refer to joint ISOILAC-IAF Communiqué dated April 2017).
